

TIGER SALAMANDER ANSWERS

1. B. Pickle. The colours on a Tiger Salamander make it look like a pickle with legs.
2. C. A Tiger Salamander is up to 35 cm long, or about as long as a tube of toothpaste.
3. A. True. A Tiger Salamander has four toes on its front feet and five on its hind feet.
4. A. Tiger Salamanders are only found in North America.
5. D. Poaching. Acid rain, pesticides, and introduced fishes have all caused the Tiger Salamander population to suffer, but poaching has not.
6. B. Tiger Salamanders can hear sounds through their lungs.
7. C. There are 400 types of salamanders and newts.
8. A. A male Tiger Salamander performs an underwater courtship dance to attract females.
9. D. Female Tiger Salamanders lay their egg mass on underwater plants.
10. B. Tiger Salamanders are rarely seen because they stay underground, hidden from view.
